MySQL, MongoDB

JavaScript

ReactJS

Linux

Soft Skills

- Excellent communication
- Strong problem-solving
- Time management

My Interests

🔧 Innovation

♟ Chess

🖋 Sketching

Projects

Truecaller

Data Fetcher (TDF)

Tech Stack:

Link:

Description:

University Project

HTML, CSS, nextJS, Python, Flask, Bootstrap

<https://github.com/FadeHack/TDF>

Developed a Flask web app using Truecallerpy API that allows user login with phone number, receives OTP, and access bulk/single number search. Provides phone number owner details in a table.

The Network Den (TND)

Tech Stack:

Link:

Description:

University Project

Python, Flask, Kklang

<https://github.com/FadeHack/The-Network-Den>

TND is a GUI-based network analysis tool built with the kivy framework in Python. It offers three key functionalities for network analysis.

Stud Dash

Tech Stack:

Link:

Description:

Personal Project

HTML, CSS, Python, MongoDB, Flask, JavaScript

<https://github.com/FadeHack/StudDash>

StudDash is a comprehensive web application that simplifies assessment management for educational institutions. It enables efficient creation and taking assessments, tracks student results, and provides insightful reports.
